

ENVIRONMENT GROUP

***Working together to conserve and protect
our much-loved countryside***

Charity No. 1179093

Opening new permissive paths
(Kettlewell 2018 - spot the familiar faces)

Planting new hedges and trees

This hedge was planted in 2019 by the Kettlewell Path. You should see it now!

A free tree for every household, in 2019. How is yours doing?

Planting for people and wildlife - Playing Field, 2022

Making Homes For Wildlife

Managing hedges to help dormice

Giving tips on how to help hedgehogs

Making and putting up bird and bat boxes

Helping Pollinators

(Photo above taken in Rattery)

Our bees, butterflies and other insects are all declining, due to climate heating, toxic pesticides, disease and habitat loss.

We're helping them by promoting the planting of native wildflowers and patches of flower meadows as part of the B-Lines wildlife-rich corridors in our parish.

Doing our bit to maintaining our beautiful landscape for all

What Next for the REG?

View over Bidwell Valley © Copyright **Robin Stott**

Bidwell Valley Project: We'd like to conserve and improve the wildlife-corridor along the Bidwell Brook. Would you like to help us?

Jubilee Path: a new permissive, off-road path in the village, hopefully opening later this year, with, possibly a small wildlife reserve.

What else?: Let us know your ideas. How could you help? How can we best support local landowners? Write your idea and pop it in the jar, or contact:
